

Bloom, Ronald G RONALD.BLOOM@energytransfer.com
To Elbert Taylor etaylor@midwesternservices.com

Elbert-I wanted to Thank you and your group for the Safe, Professional, and Efficient work that you performed at DCTF. It's rare, with a project of this size, that we don't encounter some challenge's along the way. Your crews managed to clean over twenty tanks this year with minimal over sight and without any concerns. Great team effort with the pre-planning and execution by all involved! I will make sure that others needing tank cleaning services in the future are aware of your excellent service and performance.

I know that you and your crews have been away from your families during a very stressful 2020 due to the Covid situation. I wish all of those on your team, as well as all of their families members, a safe and joyful holiday season!

Take care and please pass this on to the others on your team that you mentioned below.

Thank you

Ron Bloom
